# Modern Learning Starts Here

- ✓ **Remote Instructional Services:** Our state-certified, remote teachers have extensive expertise in facilitating balanced, engaging learning experiences to meet your short- and long-term staffing needs.
- ✓ **Custom Online Schools:** Diversify options for how students attend school in your school district with a full-time, turn-key online school. This solution offers the best of both worlds, where students can access the school district community via clubs and athletics while learning at home.
- ✓ **Student Re-engagement:** The pandemic led to a significant decrease in public school enrollments nationwide. Learning Solutions will leverage its robust and high-touch enrollment services team to recruit, recover, engage, and educate students within a school district at zero risk. Increased enrollments bring increased funding, and school districts only pay Learning Solutions when they re-enroll students.
- ✓ **Stride Tutoring:** Get personalized, high-dosage tutoring to help your students accelerate learning, overcome learning loss, and meet goals. Stride tutors are state-certified teachers trained to deliver high-quality 1-to-1 and small-group tutoring at an affordable price for school districts.
- ✓ **Kindergarten Prep:** Our online pre-K program features a comprehensive curriculum designed to prepare children for kindergarten. The program includes 18 thematic units with instructional activities in six subjects: language arts, mathematics, science, social studies, art, and music.
- ✓ **Stride Professional Development Center:** Enhance professional growth with an extensive content library of on-demand professional development courses, hands-on training, and live events for educators looking to advance their expertise and optimize student outcomes, no matter the classroom setting.
