

Overcome learning loss and improve student outcomes through high-dosage, virtual tutoring by state-certified, remote teachers.

## High-Dosage Tutoring: A Proven Method

The research is clear: Virtual high-dosage tutoring is proven to be the most effective intervention for overcoming learning loss, and can improve test scores and grades.

**For best results, high-dosage tutoring consists of the following:**

**3-to-4**

scheduled times  
per week

**Most Impactful**

during the  
school day

**30 to 60**

minute  
sessions

“

**I have an 8th grade student I have been meeting with twice a week to prep for a state test in Virginia. He has mentioned the sessions made him feel more prepared. I also have a 7th grade student I meet with weekly to assist with homework help, and he mentioned how he is passing all his classes now after receiving tutoring help.”**

# The Help Students Need. The Personalization They Seek.

Accelerate learning with personalized, high-dosage tutoring that can help students gain the academic knowledge, skills, and confidence needed to meet their learning goals. All tutors are state-certified teachers trained to deliver high-quality 1:1 and small group tutoring at an affordable price for districts.

## Why Choose Stride Tutoring?

- ✓ Certified teachers
- ✓ Recover gaps quickly
- ✓ Provide scaffolded support
- ✓ Accelerate learning
- ✓ Tutoring is virtual and face-to-face
- ✓ Enhanced progress monitoring and communication via the portal

“

**This allows me time to establish rapport with them and build relationships. It is fun to see their progress and the accomplishment of submitting their work. Checking things off their list is exciting for them as well as me.”**

## 6 Tips to Boost Your Teacher Involvement

Your teachers know your students best. That's why we've designed multiple opportunities for your educators to collaborate with our virtual tutors, such as:

- ✓ Schedule a tutoring session for a student or small group.
- ✓ Engage tutors to challenge advanced students.
- ✓ Provide the tutor with specific direction on what to cover using the Stride platform.
- ✓ Encourage consistent tutor-student pairings to develop strong relationships.
- ✓ Anticipate tutoring support for at-risk students before bad grades happen.
- ✓ Share resources, communicate, and monitor progress through the portal.
